

# AKRIAL

## WATER BASED INTERIOR + EXTERIOR OIL PAINT

### Product Description:

Akrial Water-Based Interior and Exterior Oil Paint is a water-based acrylic-alkyd paint with a glossy and semi-matte finish. As an eco-friendly alternative to solvent-based paints, it can be safely used in both interior and exterior environments. It complies with European Union VOC (Volatile Organic Compounds) standards, is non-flammable, and provides a safe environment with no fire risk.

### GENERAL SPECIFICATIONS

- ✓ Water-based acrylic-alkyd composition.
- ✓ Glossy and semi-matte finish.
- ✓ Complies with EU standards, low VOC content.
- ✓ Single-component and fast air-drying.
- ✓ Non-flammable, environmentally friendly.
- ✓ Does not peel, long-lasting.

### EXTENSIVE APPLICATION RANGE

- Interior and exterior surfaces
- Wooden surfaces
- Walls
- PVC materials
- Metal surfaces (provides excellent adhesion)

### TECHNICAL SPECIFICATIONS

- **Application Instructions:** The surface to be applied must be free from dirt, dust, oil, and any loose residues, and it should be clean and dry. Akrial Oil Paint should be diluted with 5% to 20% water before use. After mixing with a mixer for 3 minutes, apply it to the surface in two homogeneous coats using a brush or airless spray. Ensure the application is done at temperatures between +5°C and +35°C.
- **Consumption:** 1 kg/m<sup>2</sup> for two coats
- **Color:** White
- **Storage Conditions:** Store in a dry and cool environment, in its original unopened packaging.
- **Shelf Life:** 12 months
- **Packaging Type:** 0.75, 2 kg metal bucket
