

BSK-1000

CONCRETE SEALER ADDITIVE

Product Description:

B.S.K-1000 Waterproof Concrete Admixture is a liquid crystalline concrete additive that fills capillary voids in concrete, mortar, screed, and plaster mixtures made with fresh Portland cement. After the concrete sets, its special formulation regulates the moisture absorption process, strengthens the concrete, increases its durability, and prevents corrosion. Additionally, it minimizes surface dusting in set concrete.

GENERAL SPECIFICATIONS

- Increases the waterproofing of concrete.
- Enhances the mechanical strength and durability of concrete.
- Provides protection against corrosion.
- Minimizes surface dusting.
- Easy to mix and apply.

APPLICATION RANGE

Applied in fresh concrete and screed mortars (as a mixture).

TECHNICAL SPECIFICATIONS

Usage Instructions:

1. When preparing mortar, screed, plaster, or concrete mixture, add B.S.K-1000 equivalent to 5% of the water used in the mixture.
2. Thoroughly mix the product before use.
3. Continue mixing until a homogeneous mixture is obtained.
4. Apply the mixture according to standard application procedures.
5. Packaging: 30 kg plastic container

Storage Conditions:

- Store in a cool, dry place protected from freezing.
- Keep away from direct sunlight and high temperatures.
- Store in its original, sealed packaging.
